

2020 Fusion

With a user-friendly interface, an extensive list of manufacturers' catalogues and comprehensive sales tools – design your customers' dream kitchens and bathrooms quickly and easily with 2020 Fusion. 2020 Fusion software is the first choice for designers working in the kitchen and bathroom sectors. Based on 25 years of experience and continuous development, 2020 Fusion is feature-rich, yet easily accessible and is combined with powerful sales administration tools to provide the smoothest possible path from idea to installation.

2020spaces.com/2020Fusion

The Challenge

In the busy world of design, you need a powerful, reliable software you can master quickly. The ability to produce compelling photo-realistic presentations is critical to helping your customers visualise their new spaces.

Similarly, it is essential that you have access to a wide selection of up-to-date and accurately priced manufacturers' catalogues so that you can reflect all of your suppliers' products. You should also be able to depend on cutting-edge technology stemming from profound industry knowledge. Your product's training and support options should be superlative and flexible.

Ultimately, the software you choose should be easy to use, give you creative scope and leave a lasting impression with your customers.

The Solution

A smart interface makes designing with 2020 Fusion easy and enjoyable. An extensive choice of manufacturers' catalogues allows you to plan with the largest library of products in the industry; while the software's automatic pricing mechanism lets you produce instant customer quotes.

In addition, realistic graphics mean you can create stunning presentations that will captivate your customers. The software's diverse functionality and thoughtful design is derived from a close understanding of the kitchen and bathroom sectors and is backed up by exemplary training and customer support. Powerful and intuitive, 2020 Fusion gives you a natural, yet effective, design experience.

Benefits

Easily produce professional designs

Feature-rich, yet intuitive, the 2020 Fusion design software is based on Microsoft Office™ standards, allowing you to quickly create professional plans, stunning presentations and accurate quotes.

Tap into the widest selection of manufacturers' products

Design with confidence. 2020 Fusion gives you fingertip access to more manufacturers' products and prices than any other design software in the industry.

Train in record time

The 2020 Fusion interface will be familiar to anyone who's ever used Microsoft Office™, making it easy to take advantage of its many valuable features.

Captivate with powerful presentations

Create compelling presentations and movies featuring natural lighting and real-life settings so customers can easily picture their new spaces. Customers can even view the design on one screen while you make modifications on another.

Benefit from valuable sales tools

Improve your productivity by immediately generating customer quotes and ordering products electronically with 2020 Fusion. Intelligent sales tools let you manage every aspect of your project, from confirming delivery dates to ensuring millimetre perfect installation.

What 2020 Fusion delivers

2020 Fusion is an easy-to-use kitchen and bathroom design software that seamlessly integrates cutting-edge technology and comprehensive sales management tools.

This high-end professional sales tool builds on 25 years of industry experience, giving you the power to choose from thousands of manufacturers' products. In addition, the software's renowned graphical capabilities let you create impressive presentations and movies.

What's more, 2020 Fusion produces accurate quotes, orders, invoices and installation guides, providing everything needed to create perfectly designed spaces from start to fabulous finish.

How 2020 Fusion is helping you

- Design more easily with 2020 Fusion, assisted by a variety of wizards, automated planning and optimisation tools.
- Produce accurately dimensioned and annotated plan and elevation views according to recognised industry standards.
- Enhance designs by importing room layouts, as well as 3D models and materials to represent any object in all areas of the home.
- Instantly produce customer quotes, with all manufacturer items accurately priced, based upon the features and options chosen.
- Benefit from our close relationships with suppliers to the kitchen, bathroom and home improvement industry.

2020 Fusion Key Features

Access the most comprehensive list of manufacturers' catalogues in the industry. When designing, easily substitute products from other brands or recall favourite product arrangements. Automatic trade and retail pricing lets you instantly generate quotes, invoices and orders, as well as calculate and manage profit margins. Designers can now stream content from 2020 Cloud, a fast and reliable way to get the latest manufacturer catalogues. Content from 2020 Cloud is certified to work with 2020 Fusion and is always up to date.

Impress your customers with photo-realistic 3D presentations. Display several views and work on more than one design at a time, or present your design on a separate customer-facing screen. In addition, add or modify products within any view and see your changes automatically being made throughout the application.

Extensive Manufacturers' Catalogues

Ultimate Viewing Power

Complete Tiling and Covering Tools

Superior Help Always at Hand

Embellish your designs with a wide variety of surfaces, including tiling, flooring, carpeting and wallpaper. Built-in tools let you apply custom patterns, place feature tiles and insert manufacturer-specified combinations. In addition, 2020 Fusion automatically validates your choices and calculates the amount of material you will need to cover each respective area.

As in Microsoft Office™, 2020 Fusion help files are task-driven. Just type in what you want to do and the software will instantly find the function for you. Help files are also regularly updated so as long as you are online, you will have instant access to the most up-to-date tips and advice.

360° Panoramic Views

The 360° Panorama feature in 2020 Fusion allows you to provide your clients with an immersive 3D experience that makes them feel like they are right inside their new design. Simply email a panoramic view link to your clients and they can open it in web browsers or on mobile devices and share with friends and family. The new feature provides an inspiring and highly professional way to get your customers excited about their new space and increases the chances they move forward with the project. Use completed panoramas as marketing tools on your website and with prospects! The panorama feature is included free of charge to supported 2020 Fusion customers and there is no limit on how many you can produce.

Other Major Features

Wide selection of 3D models

A direct link to the Trimble 3D Warehouse™ lets you choose from a large online database of free SketchUp™ models to further enhance your designs. Also import 3D models into 2020 Fusion in several other recognised file formats.

Precise dimensioning and annotation

Instantly dimension and annotate both plan and elevation views according to industry standards. You can also insert installation symbols, or add your own dimensions and notes to truly customise your designs.

Instant designs

Qualify customers in seconds using automated kitchen design tools to provide an indicative price based on the room layout and the styles and options chosen. Let 2020 Fusion quickly and easily add the linear items to your design, whilst calculating the optimum quantities required.

Real-life backgrounds

Personalise your presentations by importing photographs of the views from the windows of your customers' homes.

Natural lighting effects

2020 Fusion lets the sun shine in with its ability to add natural lighting effects that make the most of your designs' colours and textures.

Impressive movies

Let customers take a virtual tour of their dream space with the compelling 2020 Fusion movie feature.

Helpful project management tools

Stay on top of each project from start to finish by tracking orders, tasks, delivery dates and payments with fully integrated customer management tools in 2020 Fusion.

Manufacturer Relationships

We are continuously working with manufacturers to forge new and lasting partnerships, ensuring that our customers benefit from the widest range of options available, delivered in parallel with the release of their product manuals.

Examples of manufacturers who we are currently working with are as follows:

The 2020 Fusion Product Philosophy

With a focus on offering designers the most advanced software in the market, the team behind 2020 Fusion has paid close attention to industry trends and customer feedback. The result is an intelligent interface that sets 2020 Fusion apart from any other solution on the market today. Feature-rich, yet fluid, 2020 Fusion is the ultimate in contemporary design software.

Active Industry Participation

As an organisation, 2020 maintains a strong commitment to the KBB industry through its active participation in several important associations, including the Kitchen Bathroom Specialist Association (KBSA), the Bathroom Manufacturers Association (BMA) and the National Training Group (NTG).

Product Certification and Testing

As a registered member of the Microsoft Partner Network, 2020 continuously seeks to develop innovative customer solutions and services based upon Microsoft technologies. As such, their products are routinely submitted for all relevant testing and certification processes, the most recent of which has resulted in the award of the 'Compatible with Windows®8' logo for 2020 Fusion.

Superior Support and Training

In addition to its user-friendly design, 2020 Fusion is backed up by unparalleled customer support and flexible training packages. Put your mind at rest knowing that our experienced team provides assistance through our customer helpline every weekday from 9 am to 5 pm. You can even benefit from our range of online support services, including remote computer assistance. A variety of training options, including seminars, online training and one-to-one sessions are also available.

2020

About 2020

2020 helps professional designers, retailers and manufacturers in the interior design and furniture industries capture ideas, inspire innovation and streamline processes. By providing end-to-end solutions and the world's largest collection of manufacturers' catalogs, 2020 provides businesses with the software and content to be more efficient, integrated and productive.

Professional

Enabling professional designers to create kitchens, bathrooms, closets and commercial offices which look as stunning on the screen as they will in reality.

Manufacturing

Providing furniture and cabinet manufacturers a complete manufacturing operations management capability developed to meet their needs.

Retail

Empowering interior home improvement retailers to inspire the imagination of their customers and accelerate decision making.
