## 2020 Design

### Installing Manufacturer Catalogs

#### **Obtaining a 2020 Catalog**

You will first need to obtain the manufacturer catalog; either from a CD, the manufacturer's website or the 2020. net portal. In most circumstances, the catalog will have a .zip extension (example sampleF.zip), but on rare occasions the file will have an .exe extension. If your catalog has an .exe. extension, simply double click to install. If your catalog has a .zip extension, follow the steps below to install it.

**Tip:** It's a good idea to download all of your manufacturer catalogs to a specific folder on your computer, external hard drive, or network server. This will make it easy to find the catalog(s) during installation or when you may need them at a later date.

#### Installing a Catalog (.zip extension)

To install a manufacturer catalog, first close 2020 Design and then follow the steps below:

1. Open 2020 Design's **Catalog Manager** from the Tools folder in the Design program group located in the Windows Start Menu or from the 2020 shortcut bar.

2. In the Catalog Tool Utilities window, click the **Install** icon.

3. Click Next.

4. Click '...' and browse to locate your catalog.

	Catal	og Install Wizard		
	Catalog Select Archive Ca	talog To Install		
<u>R</u> eset	<< <u>B</u> ack	<u>N</u> ext>>	<u>S</u> tart	

If you've saved your manufacturer catalogs to a specific folder on your computer, external hard drive, or network server, browse to that location to find your catalog.

7. In the success window, click **OK**.

8. Repeat to install more catalogs or click **Close** to close the Catalog Tools window.

Open 2020 Design, and the newly installed catalog(s) will appear in the catalog list along with 2020 Design's default catalogs and any other catalogs you may have installed. The catalog zip file is no longer needed; you can delete it if necessary or store it for future installations.
