

2020 Fusion Editions: Version 4

License Entitlement Comparison

Effective from Version 4, there are only two editions of the application sold into the (UK) professional (aka specialist) market:

- 2020 Fusion (advanced functionality)
- 2020 Fusion Foundation (entry level functionality).

The following table provides an 'at a glance' view of the differences between the two editions.

Each edition will, however, also be available in standalone and/or timed variants.

Both Editions
