

# InnoDraw Digital Measuring Solutions

No need to settle for this...

When you can easily get this

**InnoDraw is the most accurate digital measuring software for the Kitchen Bed & Bath/Home improvement market and has been utilized in over 200,000 successful projects worldwide!**  
**InnoDraw simplifies, speeds up and eliminates errors in your measuring workflow to increase revenue in your business!**

### **EASY AND AFFORDABLE!**

Affordable usage plan. Low affordable packages starting at \$25/measure with a price cap of \$350/month (for unlimited usage).

### **Measuring Options for Every Budget!**

1. **Measure via tape measure** - measurements can be manually entered into InnoDraw software. Enjoy the full functionality and benefit of the InnoDraw software and 2D and 3D job drawings.
2. **Measure via hand-held laser distance meter** - Easily draw the areas by point and click and transfer measured height and distance via wireless communication directly to the software to obtain complete 2D and 3D jobs with the full accuracy of InnoDraw's software!
3. **Measure via 3D Laser Device** - Full 3D wireless system that automatically draws the area and provides easier and faster measurements accessing the objects to be measured from a single location.
