

HIGH STAGE CORP.

"It is not an exaggeration to say that 2020 has made it possible to contract numerous projects in the past. Unlike our pros, end users lack 3D imagination. But 2020 makes it easier for customers to imagine their kitchen.

Since our company shows the state of the room with realistic expression to our customers, they can feel the harmony between the kitchen and the room. In addition, customers can imagine their own houses which have not yet been completed, so they are more convinced and able to order.

Also, since the Japanese side has created data of appliance, compared with the era of V 5.2, current version is more realistic and expressive and our customers are very pleased with it." -Mr Akiya

HIGH STAGE CORP IS SERVICED BY YMM, OUR VALUE ADDED RESELLER:

YMM Co., Ltd specializes in importing and distributing North American home building materials, as well as with construction and maintenance.

Since 2009, we have provided technical support and sales support for 2020 Design. We also create local cabinet catalogs and domestic and international appliance catalogs.

We deliver services that meet the delicate and high-quality demand in Japan.
