7 New features

7.1 TFS 257287– Integrate player 7.2.0.59 to fix PNaCl change

Some compatibility issues were previously detected between the 3D player 7.2.0.55 and Chrome version 68+ on the latest Windows/MacOS version. This new release of Virtual Planner will use new 3D player 7.2.0.59 when the user is using any version of Chrome.

For all other browsers, the application remains the same and will continue to use the native 3D Player version 7.2.0.55. And for Safari, application will use 3D Player version 7.2.0.56.

8 Fixed Issues

ID	Title
254878	254878 - Player(PNACL) : VP-Chrome 68-Floor, Door style is not getting applied in planner area.
