

2020 PRESENTS

Blended Presentations: Capturing Creativity with Technology

This session will reflect on the evolution of how technology has changed the way we work through the design process. We will look at a variety of tools that allow creativity and capture the details required for a successful project.

If you are looking for ways to make your presentations stand out, you'll enjoy this session. We'll look at real-life examples and discuss, with a hands-on approach, how you can quickly leverage technology in your design business. Mobile devices (phones & tablets) are encouraged, strong Wi-Fi is required for this presentation.

ABOUT THE PRESENTER

Vanessa DeKoekkoek

Vanessa DeKoekkoek is the Global Training Manager at 2020, the leader in technology solutions for professional designers, retailers and manufacturers. She has helped thousands of designers leverage technology in their design solutions. Vanessa holds an Associate of Applied Science and Bachelor of Interior Design from Baker College.
