# Powerful design tools

## Space Planning

Draw walls, doors & windows, cabinets, sloped ceilings and more with our easy-to-use interface. Try multiple designs quickly and automatically generate perspective views, right from the plan. Print plans with detailed dimensions and labels for your installers and sub-contractors. Created specifically for kitchen and bath professionals, our CAD software's built-in rules ensure that projects comply with industry design standards, from start to perfect finish.

## Lighting

Applying lighting to your designs has never been easier. Simply place cloud light fixtures and/or sunlight in your project, and the rendering is updated in real time. With the Lighting Wizard tool, you can easily light cabinets with a click of a button.

## Accurate Quoting & Ordering

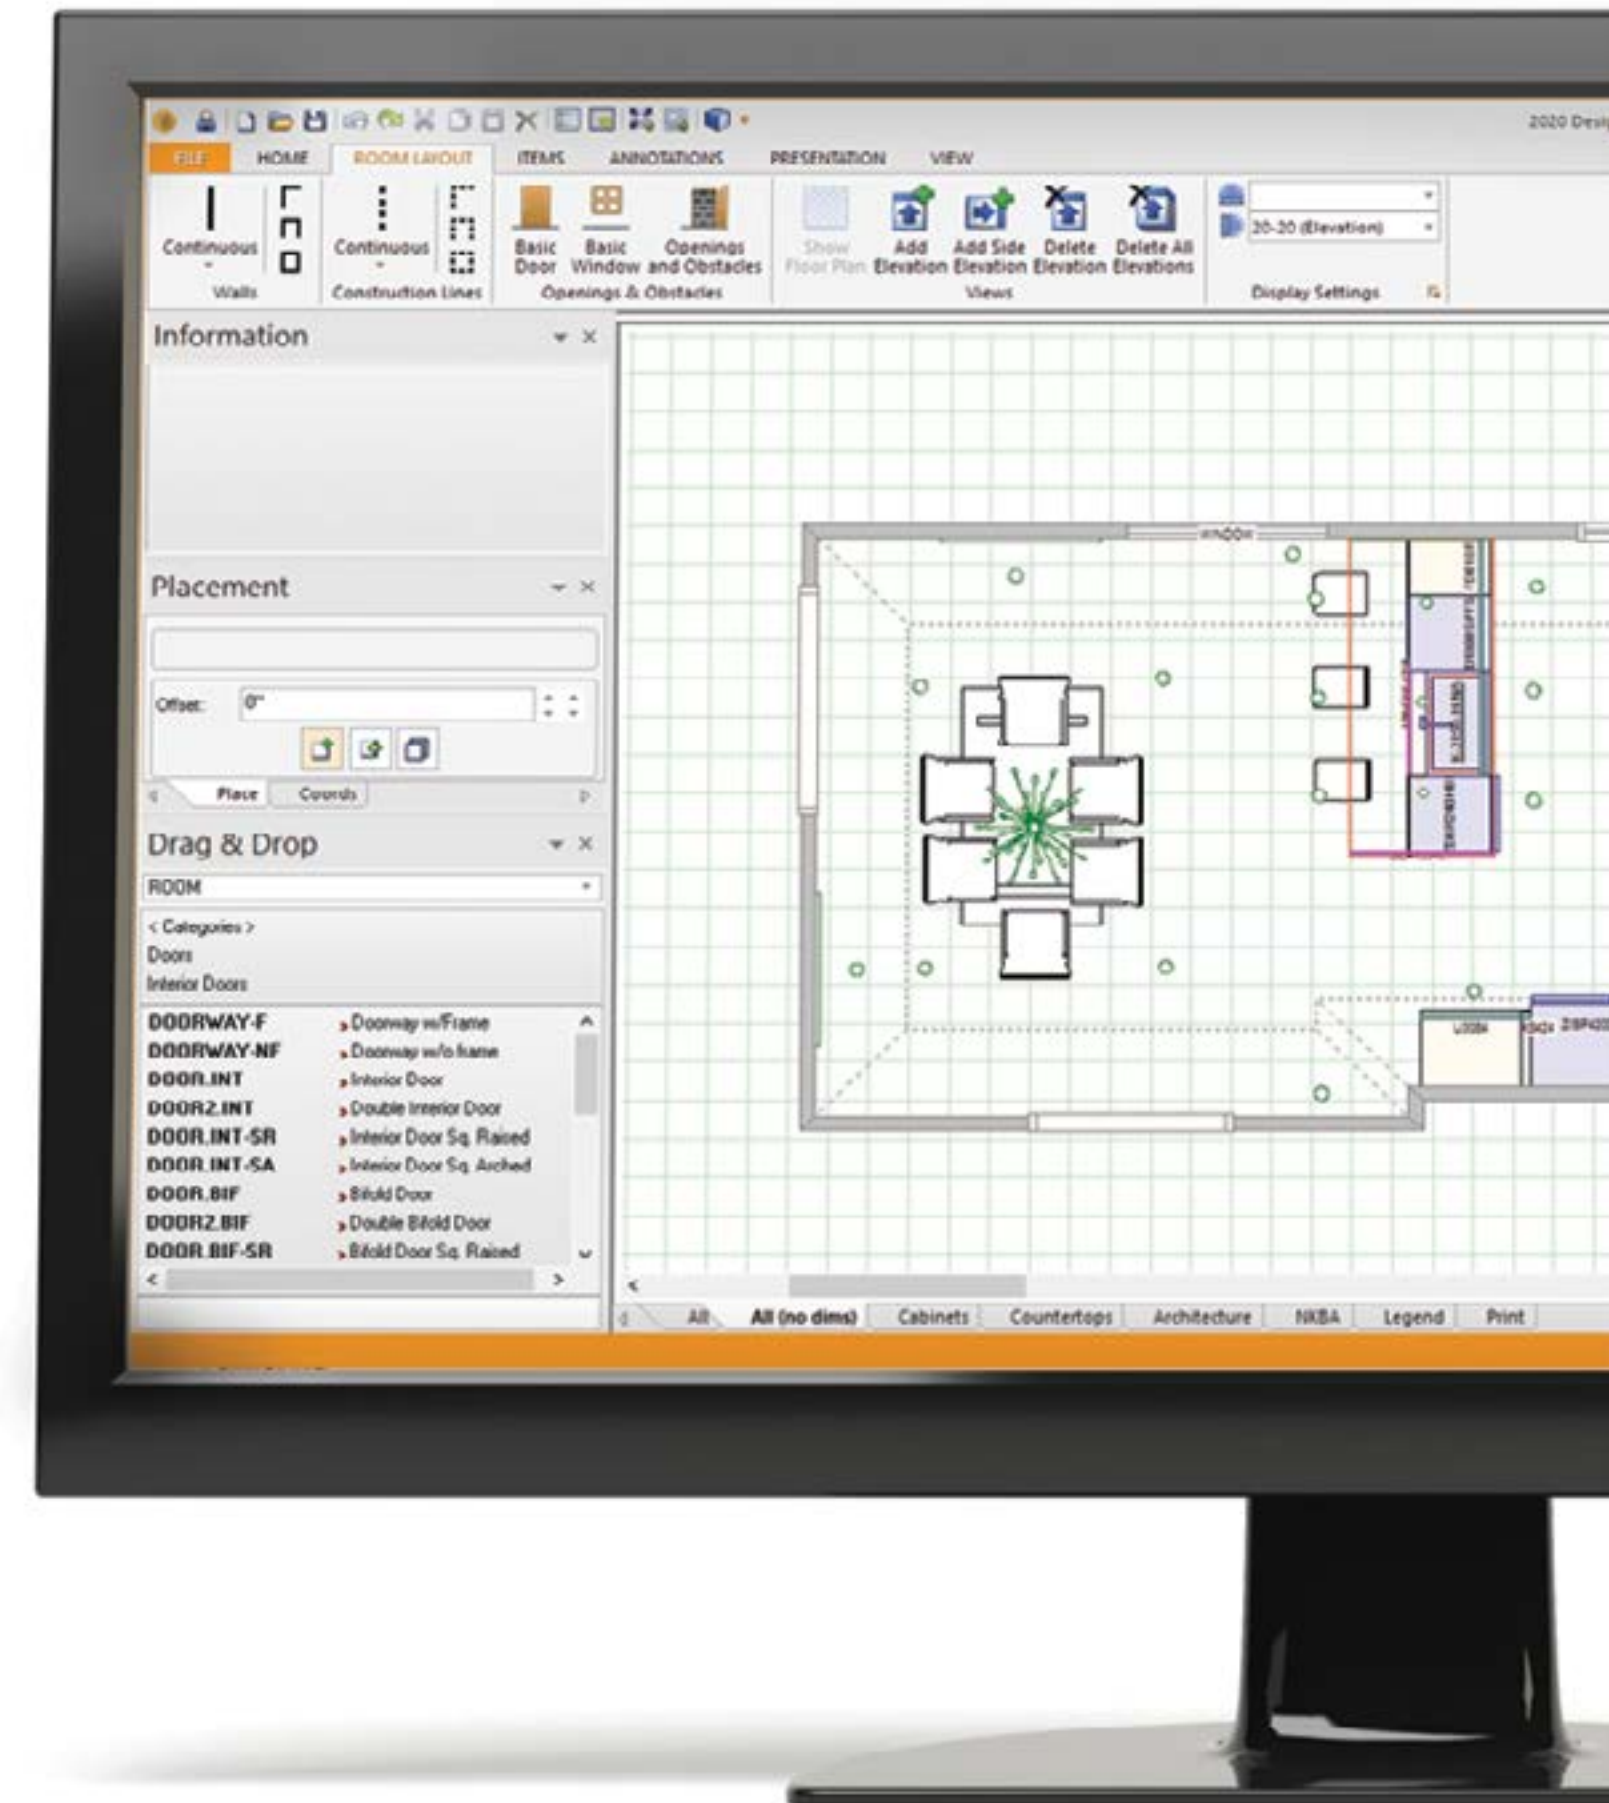

Built-in pricing makes it easy for you to provide clients with accurate project estimates. When it's time to order, your order lists are already built and ready to send to your vendors.

## Stunning Presentations

Impress your clients with vivid renderings of your designs. Our EZ Render engine maximizes efficiency and quality, applying and calibrating lighting and true material finishes with a single click. EZ Render gives your clients the clarity they need to communicate effectively and make decisions faster and easier than ever. In addition, newly added post-processing filters take your renderings to the next level when you showcase them to your customers.

## Share Designs Anywhere, Anytime

Collaborate in real-time with the new Live Share feature. Share design renderings for live feedback from your customers. Make changes on the fly and allow your customers to collaborate on the design process. Live Share is the future of design collaboration.

## Content Libraries

Specify and visualize your designs with real products from the **largest collection of manufacturer catalogs in the industry**—and 2020 Design Live is the only design application with configurable catalogs streamed live from 2020 Cloud. Featuring cabinetry, appliances, plumbing and more, our cloud content is always up to date without having to download or install files. In addition, access built-in texture libraries from industry vendors such as Alvic®, Sherwin-Williams®, Uniboard® and WilsonArt® or import 3D SketchUp and AutoCAD® models from online libraries.

## Decorative Items Catalog

There are over **2,600 high-quality decorative items** in 2020 Cloud that can be used to enhance and personalize your designs. Decorative items can easily be changed to any color, pattern or texture to suit the style of your design or modified to suit your required dimensions.

# Real-time manufacturers' catalogs

## Searching Made Easy

Use comprehensive search capabilities to easily find any product across all 2020 Cloud catalogs.

There's no need to look through each catalog individually or to know a specific product code.

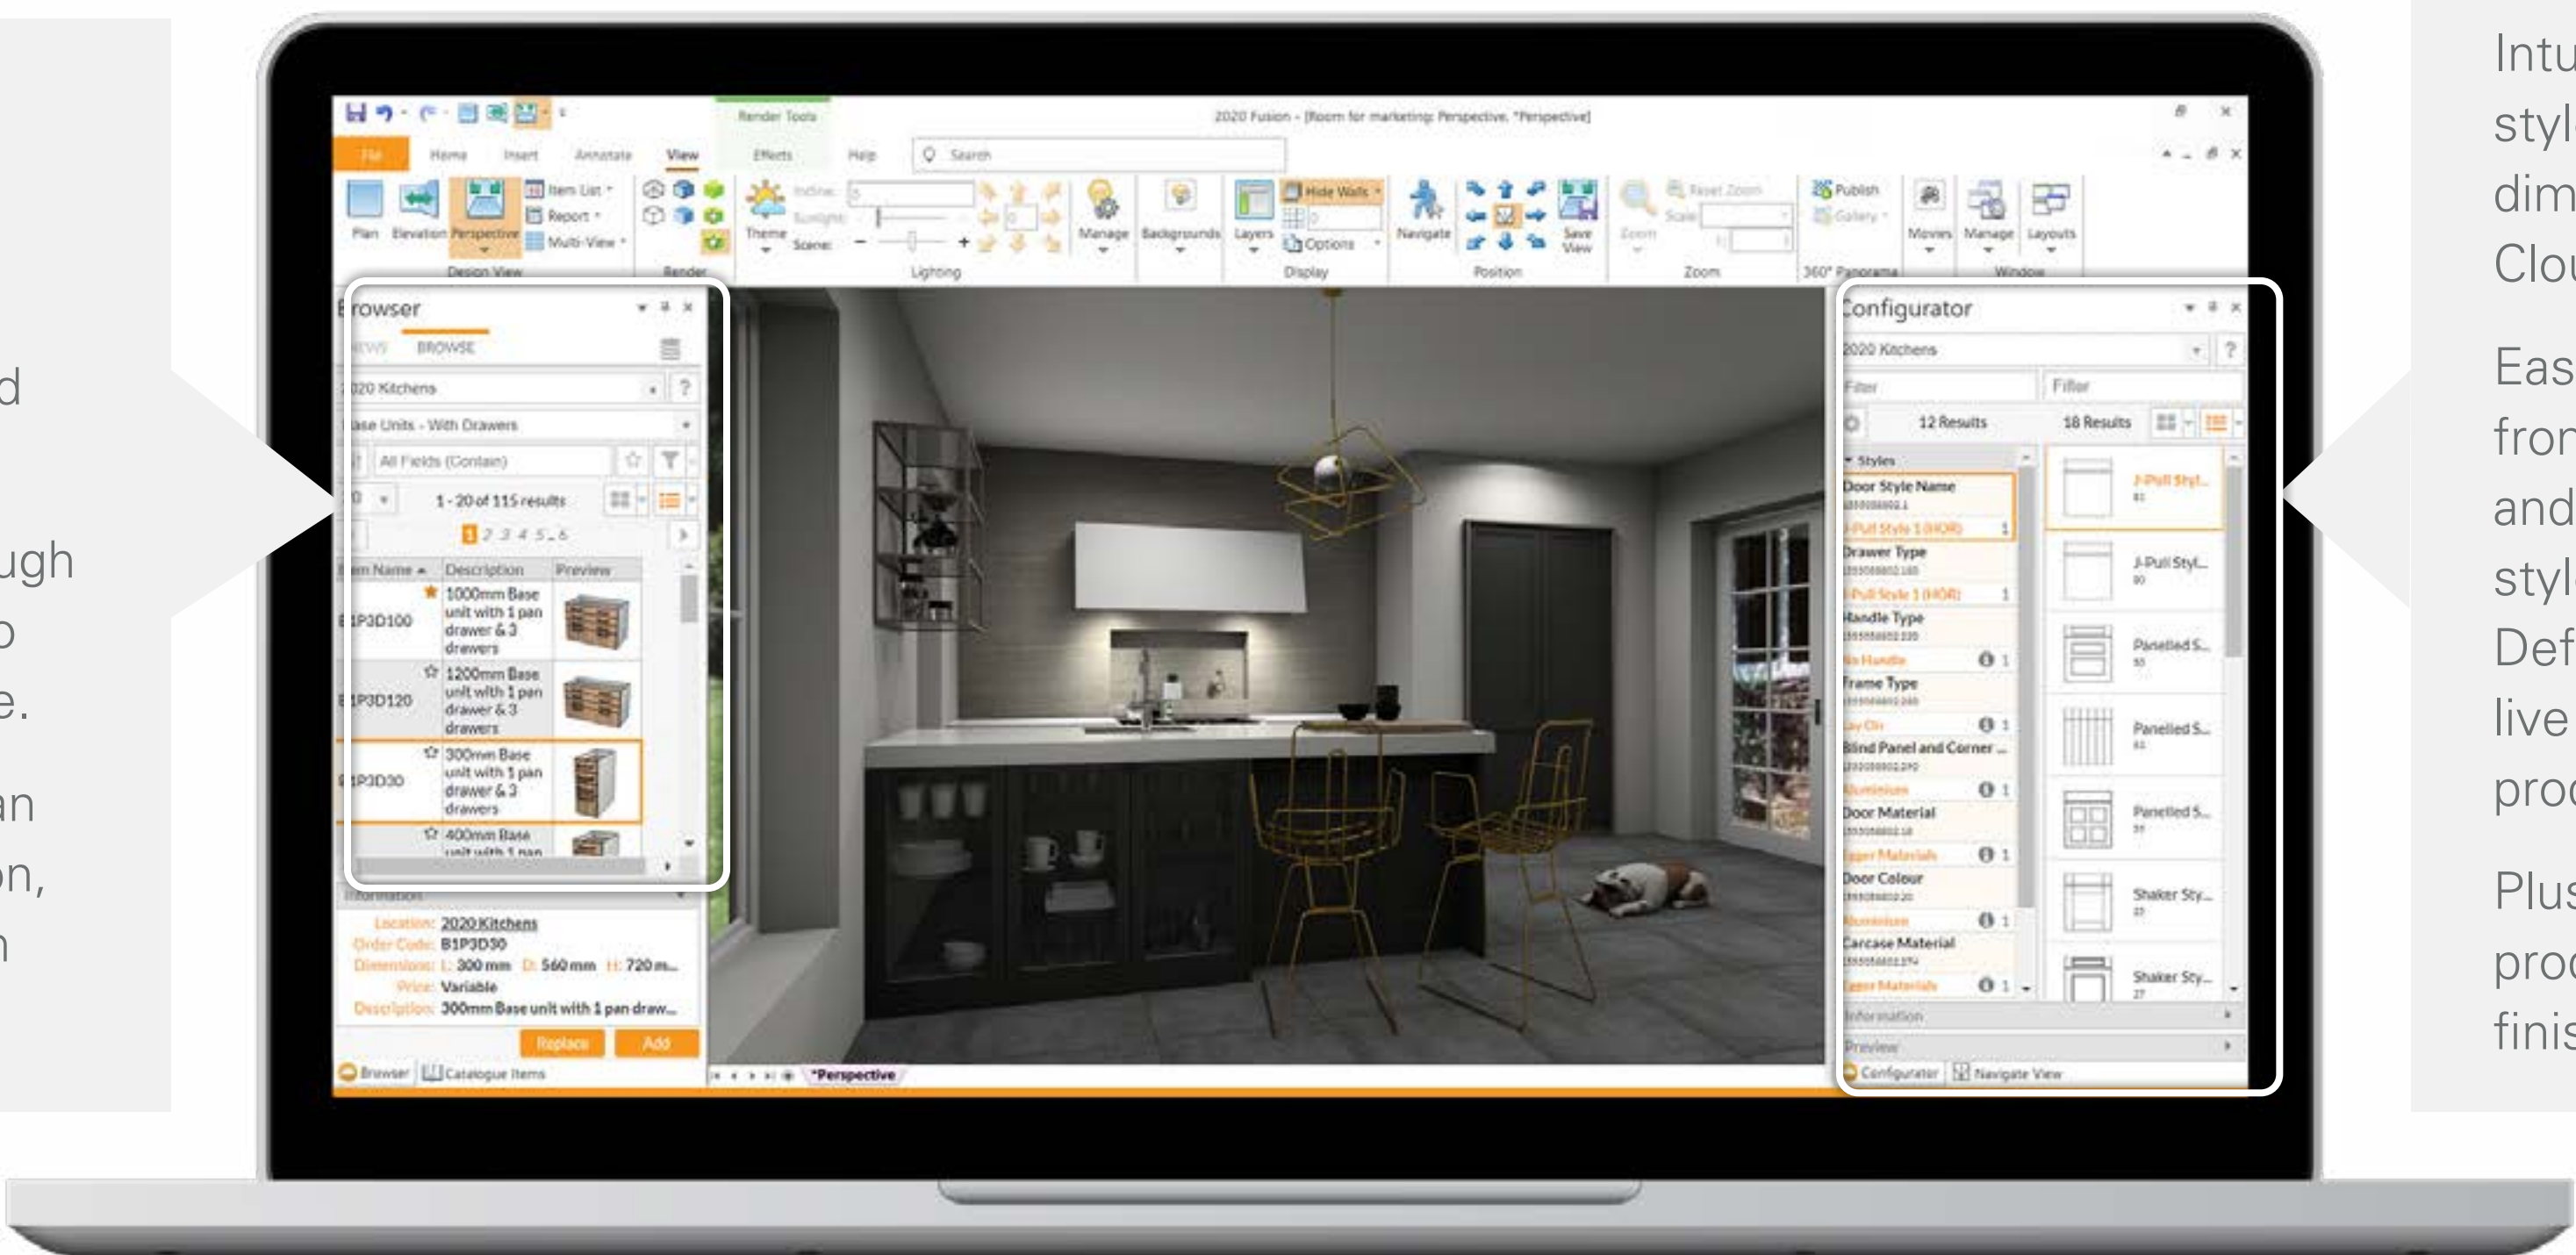

With advanced filters, you can locate products by description, partial product codes or even dimensions.

## Powerful Item Configurator

Intuitively change multiple door styles, finishes, handles, product dimensions and more in the 2020 Cloud configurator.

Easily add associated products from other relevant catalogs and quickly identify any product styles that require validation. Define default styles and see a live preview of a fully configured product.

Plus, use text filters to easily find product options such as paints or finishes.

# Don't just take our word for it...

"The best feature is being able to change cabinet colors without having to download and install multiple catalogs! I have been known to use up to four catalogs in one drawing. This saves a lot of time when clients ask for changes."

ALYSSA PHILLIPS, NOVA KITCHEN AND BATH, INC

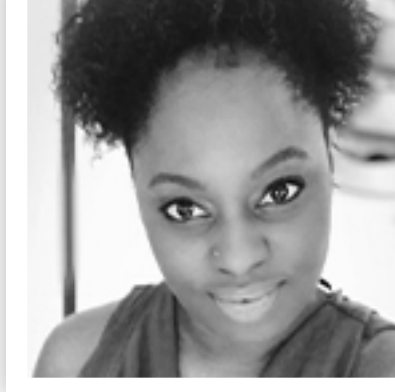

"Using 2020 Design Live to sell a design concept makes my life easier. It allows us to push the envelope and do new and exciting work."

JENNIFER LAMARIANA, SIGNATURE INTERIOR DESIGNS

"I use the 2020 Cloud Decorative Items catalog all the time. Its ease of use is the best part about it. The items capture all the industry trends and make it easy to put customer presentations together."

PAUL MACHADO, WOOD PALACE KITCHENS

"I love that it's easy to change colors and edit dimensions on multiple items at the same time."
